Get an Overview of the 1Y0-403 Certification:

Who should take the [1Y0-403 exam](#)? This is the first question that comes to a candidate's mind when preparing for the CCE-V certification. The 1Y0-403 certification is suitable for candidates who are keen to earn knowledge on the Virtualization and grab their Citrix Certified Expert - Virtualization (CCE-V). When it is about starting the preparation, most candidates get confused regarding the study materials and study approach. But 1Y0-403 study guide PDF is here to solve the problem. 1Y0-403 PDF combines some effective sample questions and offers valuable tips to pass the exam with ease.

Why Should You Earn the Citrix 1Y0-403 Certification?

There are several reasons why one should grab the 1Y0-403 certification.

- The CCE-V certification proves to be one of the most recognized certifications.
- The certification badge proves the knowledge of the candidate regarding subject matters and makes his resume presentable to potential candidates.
- Thus earning the [Citrix Certified Expert - Virtualization \(CCE-V\)](#) is a powerful qualification for a prosperous career.

What Is the Citrix 1Y0-403 CCE-V Certification Exam Structure?

Exam Name	Citrix Virtual Apps and Desktops 7 Assessment, Design and Advanced Configurations (CCE-V)
Exam Code	1Y0-403
Exam Price	\$300 USD
Duration	120 minutes
Number of Questions	61
Passing Score	51%
Recommended Training / Books	CWS-415: Citrix Virtual Apps and Desktops 7 Assessment, Design and Advanced Configuration
Schedule Exam	PEARSON VUE
Sample Questions	Citrix 1Y0-403 Sample Questions
Recommended Practice	Citrix Certified Expert - Virtualization (CCE-V) Practice Test

Enhance Knowledge with 1Y0-403 Sample Questions:

Question: 1

Scenario: A Citrix Architect is using LDAP as single-factor authentication. The architect is migrating the environment to Citrix Cloud and wants to retain the same authentication procedure for Virtual Apps and Desktops service in Citrix Cloud.

Which deployment strategy should the architect use for Citrix ADC and StoreFront to ensure that the solution reduces management overhead without incurring additional costs?

- a) Use Citrix Cloud Citrix Gateway service and on-premises StoreFront.
- b) Set up a new Citrix ADC VPX instance and StoreFront on-premises.
- c) Use Citrix Cloud Citrix Gateway service and Citrix Cloud Workspace.
- d) Set up Citrix ADC with bring-your-own license (BYOL) and StoreFront in a public cloud.

Answer: a

Question: 2

Scenario: A Citrix Architect needs to design a new Desktops environment for a client who does NOT currently have a Citrix environment. The project scope has NOT yet been determined, and the architect is about to start the Assess phase of the project.

In which order should the architect complete the four tasks of a typical assessment when following the Citrix methodology?

- a) Define the organization, Define the user groups, Define the applications, Define the project team.
- b) Define the user groups, Define the applications, Define the organization, Define the project team.
- c) Define the project team, Define the organization, Define the user groups, Define the applications.
- d) Define the organization, Define the project team, Define the user groups, Define the applications.

Answer: d

Question: 3

Scenario: A Citrix Architect needs to implement a new Desktops environment for an engineering company. The IT department has purchased 1,000 Desktops Enterprise licenses.

They will deploy Microsoft Office productivity applications to all users. Users access Virtual Apps sessions from company offices using thin client devices and remotely through Citrix Gateway using personal devices. The company requires IT to produce a report of all Virtual Apps connection failures for the previous year.

Which two actions does the architect need to take to support these requirements?

(Choose two.)

- a) Purchase Desktops Platinum licenses.
- b) Purchase Citrix Gateway Universal licenses.
- c) Configure GroomSessionsRetentionDays to 365 days.
- d) Implement Citrix ADC Application Delivery Management.
- e) Configure Groom Failures Retention Days to 365 days.

Answer: d, e

Question: 4

Scenario: A Citrix Architect needs to design a new Virtual Apps and Desktops environment for a manufacturing company. During the project kickoff meeting, the organization states the following business priorities:

“All of our employees in our manufacturing plants and offices will be connected to the environment. We want to maintain control over our entire IT environment, but need to decrease the overall costs and management burden of supporting our existing use cases.

Most of our employees use relatively simple applications, but a small team of engineers requires access to a graphic-intensive design and drafting application for their work.”

Which three design decisions will align with the stated business drivers?

(Choose three.)

- a) A multi-Site architecture and disaster recovery plan will be required.
- b) Single image management solution should be included in the design.
- c) Server OS Virtual Delivery Agent (VDA) machines should be used to increase user density per machine.
- d) HDX 3D Pro should be incorporated into the design.
- e) SmartAccess and SmartControl should be implemented for the environment.
- f) Citrix Hypervisor should be used for graphic-intensive applications.

Answer: b, c, d

Question: 5

Scenario: A Citrix Architect needs to design a new Virtual Apps and Desktops environment. The customer previously installed all applications locally on managed laptops and desktops but is willing to evaluate other application delivery methods as part of the new deployment.

The environment will be standardized on Windows 10 and Windows Server 2016 for the Virtual Delivery Agent (VDA) machines.

As part of an application analysis performed earlier in the project, the information in the Exhibit was collected regarding one of the required applications.

Category	Detail
Application Name	Workspace Office 2010
Description	A suite of productivity applications (word processing, spreadsheets, presentations, email, etc.).
Usage	This application suite is required by the accounting department.
OS Compatibility	The application is compatible with the target operating systems.
Special Considerations	<p>The rest of the organization will be using Workspace Office 2016, but the accounting team uses specialized add-ins that are only compatible with the older version of the spreadsheet application in the suite. However, the accounting team would also like to use the newer email and word processing apps if possible.</p> <p>Only one version of the Workspace Office software can be installed on a machine's system at any time.</p>

Additionally, the customer has the following objectives:

- Minimize the number of images that must be managed.
- Utilize zero clients as endpoints in order to reduce costs.

Which application delivery method should the architect use for the application?

- a) The application should be streamed to a VDA machine using Microsoft App-V and accessed through a virtual desktop session.
- b) The application should be installed on an Application Layer using Citrix App Layering, be included in a layered image, and accessed through a virtual desktop session.
- c) The application should be installed on an Application Layer using Citrix App Layering then be presented to assigned users as an Elastic Layer during a virtual desktop session.
- d) The application should be installed directly on a Server OS VDA machine and accessed from the endpoint as a published application.
- e) The application should be installed directly on endpoint devices and included in a virtual desktop session using the Local App Access feature.

Answer: a

Question: 6

What are three considerations for using thin clones with Machine Creation Services?

(Choose three.)

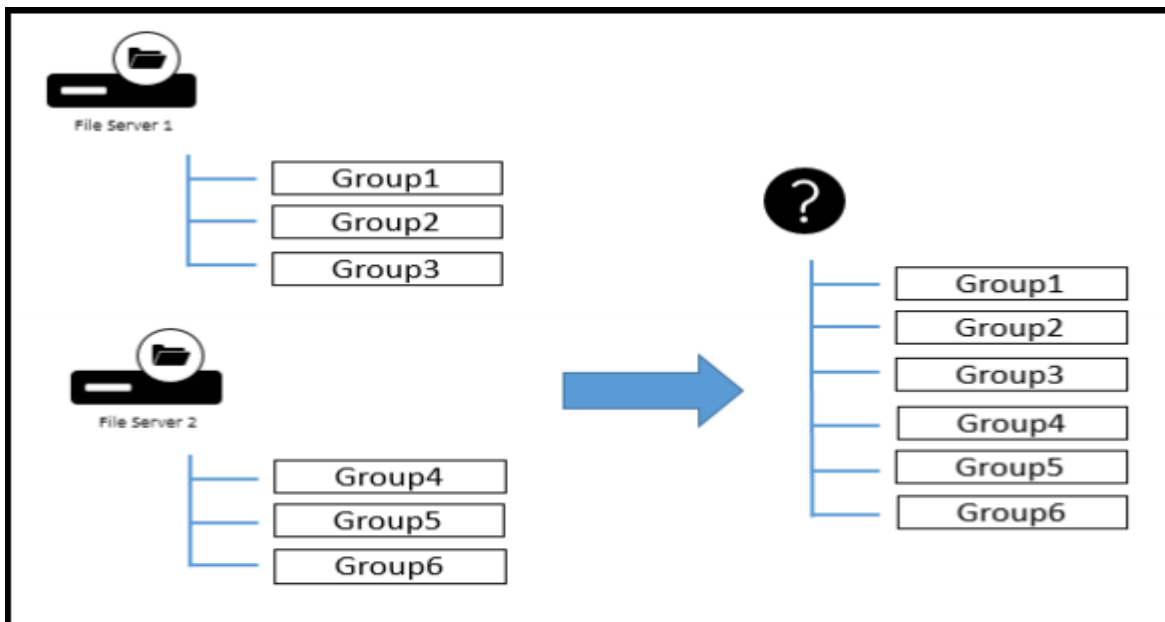

- a) Higher storage space requirements than full clones.
- b) Relatively difficult to backup or restore compared to full clones.
- c) Slower provisioning speed compared to full clones.
- d) Slower performance than full clones.
- e) Higher storage impact during a boot storm.

Answer: a, c, e

Question: 7

Scenario: A Citrix Architect is configuring a Citrix Profile Management solution for a customer. The customer has two file servers, each hosting the profile folders for three different user groups.

Review the Exhibit on the right for details about the configuration.

The customer wants to use: \\Workspace\Profiles\#\# as the profile location. The architect should configure _____ and _____ to achieve the desired result.

(Choose the correct option to complete the sentence.)

- a) DFS-Replication; user variables
- b) DFS-Replication; Active Directory attributes
- c) Load balancing; user variables
- d) DFS namespace; user variables
- e) DFS namespace; Active Directory attributes
- f) Load balancing; Active Directory attributes

Answer: e

Question: 8

A Citrix Architect needs to conduct a capabilities assessment for an organization that wants to design and build a new Virtual Apps and Desktops environment.

Which four capabilities will directly influence whether the existing Citrix administrative team will have the capacity to support the new environment?

(Choose four.)

- a) Network architecture
- b) Current backup solutions
- c) Users and applications
- d) Existing Virtual Apps and Desktops environments
- e) Training and certifications of support staff and users
- f) Current storage solutions
- g) Image management processes

Answer: a, c, d, f

Question: 9

Scenario: A Citrix Architect needs to implement Desktops in an environment. The Customer Service team processes credit card information in Web applications.

A Payment Card Industry (PCI) audit determines that processes that can run on a Virtual Delivery Agent (VDA) machine are controlled through the use of whitelisting.

Which method would be an appropriate fit for the environment, based on the requirements?

- a) Citrix Secure Browser
- b) NTFS Permissions
- c) Microsoft App-V
- d) Citrix Workspace Environment Management

Answer: d

Question: 10

Scenario: The IT team of a company needs to migrate to Microsoft Azure and has asked a Citrix Architect for a solution that offers protection from datacenter level failures.

What should the architect recommend the IT team create in Microsoft Azure?

- a) Availability set with update domain
- b) Availability set with fault domain
- c) Resource group
- d) Availability zones

Answer: d

What Study Guide Works Best in Acing the Citrix 1Y0-403 CCE-V Certification?

The 1Y0-403 study guide is a combination of some proven study tips and the combination of all valuable study materials like sample questions, syllabus and practice tests in one place.

Explore the Syllabus Topics and Learn from the Core:

If you are determined to earn success in the CCE-V exam, getting in full touch of the [syllabus](#) is mandatory. During preparation, you might not like all syllabus sections or topics, but try to get at least the fundamental knowledge from the sections you don't like. The more you possess knowledge on all syllabus sections, the more is the chance to attempt maximum number of questions during the actual exam.

Make Your Schedule:

Studying and completing the syllabus becomes easier, if you work on the syllabus topics after making a schedule. Your syllabus must mention what areas you want to cover and within what time. Once you make a schedule and follow it regularly, syllabus completion becomes easier and preparation becomes smoother.

Get Expert Advice from the Training:

Do not forget to join the Citrix 1Y0-403 training if it is providing any. Training enhances the practical knowledge of a candidate, which helps them to work well in the practical field during projects.

Get Access to the PDF Sample Questions:

If your study material is in a [PDF format](#) or the materials are mobile-friendly, what could be better than that? Get access to the free sample questions and keep enhancing your knowledge beyond the syllabus.

Avoid Dumps and Utilize the Citrix 1Y0-403 Practice Test:

Why should you rely on practice tests? The reason is simple: you must get familiar with the exam pattern before reaching the exam hall. An aspirant aware of the exam structure and time management during the exam preparation can perform well in the actual exam and attempt the maximum number of questions during the exam.

Many aspirants prefer to read from dumps, but they miss out on the self assessment method. Therefore, 1Y0-403 practice tests always stand out to be the better choice than dumps PDF.

Avail the Proven 1Y0-403 Practice Test for Success!!!

Do you want to pass the 1Y0-403 exam on your first attempt? Stop worrying; we, VMExam.com are here to provide you the best experience during your Citrix Virtual Apps and Desktops 7 Assessment Design and Advanced Configurations preparation. Try out our free mock tests to get a glimpse of our quality study materials, and build your confidence with the premium [1Y0-403 practice tests](#). Our expert-designed questions help you to improve performance and pass the exam on your first attempt.
