# Enhance Knowledge with PSPO I Sample Questions:

## Question: 1

Which of the following are needed in order to allow Sprint Planning to begin?

(choose the best two answers)

- a) Formal budget approval to conduct another Sprint.
- b) A Product Backlog with the most important items ready for discussion.
- c) A clear cadence of when the Daily Scrum will take place.
- d) A clear and non-negotiable Sprint Goal.
- e) A fully refined Product Backlog.
- f) A Product Goal communicated by the Product Owner.

**Answer: b, f**

## Question: 2

To what extent does technical debt limit the value a Product Owner can get from a product?

(choose the best two answers)

- a) The velocity at which new functionality can be created is reduced when you have technical debt.
- b) Technical debt causes a greater percentage of the product's budget to be spent on maintenance of the product.
- c) Technical debt does not influence the delivery of value.
- d) Technical debt is not a Product Owner concern, because technical debt is only an issue for the Development Team.

**Answer: a, b**

## Question: 3

Which description best fits the role of the Product Owner?

- a) Scope Protector.
- b) Chief Business Analyst.
- c) Value Maximizer.
- d) Requirements Collector.
- e) Project Manager 2.0.

**Answer: c**

**Question: 4**

It is mandatory for the Product Owner to monitor and share progress of the Product Backlog by using which method?

- a) A Product or Release burn-down chart.
- b) A Value burn-up chart.
- c) A Gantt chart.
- d) Any practice based on trends of work completed and upcoming work.
- e) A Sprint Review acceptance report.

**Answer: d**

**Question: 5**

What are typical activities for a Product Owner in a Sprint? (choose the best two answers)

- a) Create financial reporting upon the spent hours reported by the Scrum Team.
- b) Collaborate with stakeholders, user communities, and subject matter experts.
- c) Work with the Developers on Product Backlog refinement.
- d) Update the work plan for the Developers on a daily basis.
- e) Attend every Daily Scrum to answer functional questions on the discussed Sprint Backlog items.

**Answer: b, c**

**Question: 6**

The Developers find out during the Sprint that they are not likely to build everything they forecast. What would you expect a Product Owner to do?

- a) Cancel the Sprint.
- b) Skip Product Backlog refinement activities.
- c) Change the Sprint Goal.
- d) Inform management that more resources are needed.
- e) Re-negotiate the selected Product Backlog items with the Developers.

**Answer: e**

**Question: 7**

What phrases best describe the relationship of the Product Owner and the Developers? (choose the best two answers)

- a) They collaborate often so the Product Owner can make informed decisions in balancing effort and value of Product Backlog items.
- b) They should share no more than the Sprint Planning and the Sprint Review meeting.
- c) They should work apart as much as possible in order to keep the concerns of business and technology separated.
- d) The Product Owner should be with the Developers full-time to grow a deep understanding of the technology being used.
- e) They collaborate often so the Developers build Increments keeping end-user and stakeholder concerns in mind.

**Answer: a, e**

**Question: 8**

A Product Owner is entitled to postpone the start of a new Sprint after the conclusion of a previous Sprint for the following reason:

(choose the best answer)

- a) The Product Owner has not identified a Sprint Goal.
- b) The Quality Assurance department needs more time to make the previous Increment "Done".
- c) There is no acceptable reason. A new Sprint starts immediately after the conclusion of the previous Sprint.
- d) Not enough Product Backlog items are "Ready".
- e) The stakeholders are not happy with the value produced in the previous Sprint.

**Answer: c**

**Question: 9**

What best describes the relationship of the Product Owner and the stakeholders?

- a) The Product Owner writes the User Stories as provided by the stakeholders.
- b) The Product Owner provides the stakeholders with acceptance forms at the Sprint Review to record their formal agreement over the delivered software.
- c) The Product Owner has the final call over the requirements and should involve the stakeholders as little as possible.
- d) The Product Owner actively asks for stakeholder input and expectations to incorporate into the Product Backlog.

**Answer: d**

**Question: 10**

How do timeboxes help the Product Owner and the other members of the Scrum Team validate assumptions, adapt, and maximize the value of their product?

- a) At the end of each Sprint when the timebox expires a detailed report with all test cases and test results is available.
- b) Timeboxes assure the Product Owner that the Developers will finish all work on the Sprint Backlog by the end of the Sprint.
- c) Timeboxes help by making sure a Sprint does not stop until all testing is done, and the work is verified by the Product Owner.
- d) Timeboxes help minimize risk by creating the opportunity to validate assumptions using feedback from users and the market; allowing Scrum Teams to inspect progress toward the Product Goal and decide whether to pivot or persevere.

**Answer: d**

# What Study Guide Works Best in Acing the Scrum.org PSPO I Professional Scrum Product Owner Certification?

The PSPO I study guide is a combination of some proven study tips and the combination of all valuable study materials like sample questions, syllabus and practice tests in one place.

## Explore the Syllabus Topics and Learn from the Core:

If you are determined to earn success in the Professional Scrum Product Owner exam, getting in full touch of the [syllabus](#) is mandatory. During preparation, you might not like all syllabus sections or topics, but try to get at least the fundamental knowledge from the sections you don't like. The more you possess knowledge on all syllabus sections, the more is the chance to attempt maximum number of questions during the actual exam.

## Make Your Schedule:

Studying and completing the syllabus becomes easier, if you work on the syllabus topics after making a schedule. Your syllabus must mention what areas you want to cover and within what time. Once you make a schedule and follow it regularly, syllabus completion becomes easier and preparation becomes smoother.

## Get Expert Advice from the Training:

Do not forget to join the Scrum.org PSPO I training if it is providing any. Training enhances the practical knowledge of a candidate, which helps them to work well in the practical field during projects.

## Get Access to the PDF Sample Questions:

If your study material is in a [PDF format](#) or the materials are mobile-friendly, what could be better than that? Get access to the free sample questions and keep enhancing your knowledge beyond the syllabus.

## Avoid Dumps and Utilize the Scrum.org PSPO I Practice Test:

Why should you rely on practice tests? The reason is simple: you must get familiar with the exam pattern before reaching the exam hall. An aspirant aware of the exam structure and time management during the exam preparation can perform well in the actual exam and attempt the maximum number of questions during the exam.

Many aspirants prefer to read from dumps, but they miss out on the self assessment method. Therefore, PSPO I practice tests always stand out to be the better choice than dumps PDF.
